ABOUT THE COMPANY

The **INTEXGroup** company is part of the group of companies "Fabrika Sveta".

The group was formed in 2013 under the trade mark "Eurolight" and operates as an official distributor of the Plant OOO "Tekhnologii Sveta".

In 2016, we launched our own production of LED lamps. The company has a production workshop, equipment, professional staff of senior and middle management.

Today, TOO "Fabrika Sveta" is a leader in the LED lamp industry.

TECHNOLOGIES

In the production of lamps, we use components from leading global manufacturers such as OSRAM, CREE, Ledil, Meanwell, etc.

We use **unique lenses of our own design**, which have no analogues in the CIS countries.

Our lamps use the most modern **LEDs** of the latest generation with an efficiency of up to 204 lm/W.
